“Hello, my name is Almudena, but please call me Almu. I’m 29 years old and originally from Spain, though I have been living in Scotland since I was 22. I study Japanese at the University of Edinburgh, and I am currently on a one-year exchange here at Doshisha University. My goal is to pursue a career in voice over acting in Japan. In my spare time, I enjoy watching anime, singing, dancing, and exploring different music and dancing styles, currently focusing on Hispano-American styles such as bachata and kizomba. I look forward to discovering more about Japan and meeting new people during my time here.”
