

**【Important】 Regarding Measures for the TOEFL iBT® Score Scale Change for the “AY 2027–2028 Doshisha University Student Exchange Program”**

The TOEFL iBT® taken on or after January 21, 2026, has adopted a new score scale. In response to this change, the following measures will apply to applications for the “AY 2027–2028 Doshisha University Student Exchange Program”.

As the new score scale was introduced only recently, many partner universities have not yet confirmed whether they will accept TOEFL iBT® scores based on the new scale (hereinafter referred to as the “new scores”). Only those partner universities that have confirmed acceptance of the new scores list their requirements in the Remarks column of the “Doshisha University Student Exchange Program List” (hereinafter referred to as the “Program List”).

Applicants who wish to apply using new scores may do so only to partner universities that have confirmed acceptance of the new scores. Please be aware of this restriction when submitting your application.

The Office of International Affairs of Doshisha University will continue to confirm the acceptance status of new scores with partner universities in order to increase the number of institutions that accept applications based on the new score scale. As a result, the acceptance status shown in the already published Program List may be subject to change. Applicants are therefore advised to check the Program List regularly up to just before the Online Application deadline.

April 21, 2026

The Office of International Affairs, Doshisha University
