“Hi, my name is Nydasia Gray. I ’ m a non-traditional student pursuing three degrees, majoring in Computer Science, Data Science, and Japanese Language. I ’ ve always enjoyed activities like hiking, building small structures(such as DIY kits), horror movies/games, and trying new foods. Currently, I am 28 years old. I chose to study at Doshisha University because of my passion for Japanese culture and language, as well as the opportunity to gain a global perspective and connect with people from diverse backgrounds.”
